

High Quality - Magellan 1/8 Truggy Bag

HARD

HARD8941P - Magellan 1/8 Truggy Bag

As with all H.A.R.D. Magellan products, the 1:8 off road hauler bag maintains continuity in design and adds a few extra features to make it special and different from the rest. The large storage compartment comfortably houses your 1:8 scale models and the high quality Styrofoam adds durability without compromising comfort.

H.A.R.D. is continually innovating products for dedicated consumers by pursuing a stylish and enjoyable product that stands the test of time. With a generous storage compartment it is the perfect all rounder and while engineered to perform, it's also designed around lifestyle, pleasure and enjoyment.

Just as with our other lines of Magellan series, racers need the peace of mind that their equipment is safe while being transported. We are happy to announce that the H8911 has been created with this fundamental objective in mind. It's a perfect storage environment for your 1:8 model and has ample room and flexibility to accommodate your transmitter. The green security tags are also featured in this product to bring an ease of mind and security while your model is in transport. Furthermore, the bag as with other can be used as a multifunction bag around the home, work and track.

The philosophy at H.A.R.D. is providing consumers the convenience of a flexible multi-function car hauler without compromising style, quality and functionality. The series embraces a youthful theme that is colourful and contrasting in style, modern by design and fulfills your expectation of a pleasurable experience.
